£695

Mantel Size

Height 51" Width 51" Opening 39½" x 39½" £695 Oak

Larger hearths on which the mantel can stand can be supplied if required

Mantels

Tiled inserts are surrounded by a wooden mantel. Every Mantel is hand made to order and so the sizes and details can be varied on request to surround any fireplace insert.

All of the mantels shown here are made from solid Oak. They can also be supplied in Pine or most hardwoods from temperate forests.

We especially offer Oak, Ash & Beech at the standard price or Maple for an extra £100.

Samples of the Oak in various finishes (light medium and dark) are available by post.

Bespoke

Our fireplace tiles are supplied by H & E Smith of Stoke on Trent with the exception of special shapes which are hand made and glazed on our own premises.

Our insert designs are shown at 40" wide but they can be manufactured to any size if necessary. We offer a complete bespoke service where each fireplace is manufactured to a customer's own requirements.

We feel that we can do almost anything with tiles & wood so if you have any individual requests we will be happy to accommodate you.

20th Century Fires reserves the right to make minor design changes to the reproduction inserts or mantels shown on this site.

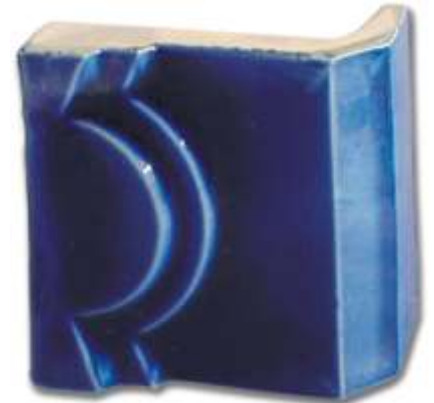

Our tiles are reproduced using similar methods to the original items and the degree of shade variation is inherent and desirable. Whilst most tiles do not normally craze, the thickness of glaze necessary to reproduce the very shiny Victorian colours may occasionally cause this to occur and actually achieves a truer degree of reproduction effect.

Opening Tiles

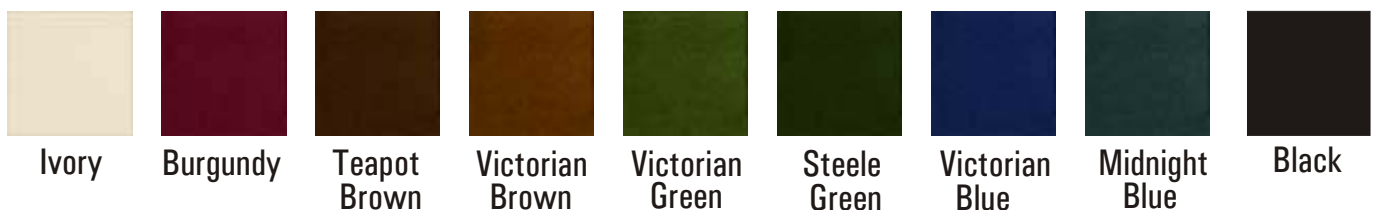

Two types of opening tiles are available. The plain curved bullnose tile and the patterned deco tile. They are 4" x 4" x 2" return

Metal trims can be incorporated around the fire opening if required.

Tile Colours

These fireplaces can be made in many sizes and colours. The main tile colours we use are:

These tiles are available in two sizes, 4" square and 6" square. Due to printing variations the appearance of these colours may differ from the actual tiles. **Tile samples are available.** We will happily supply them by post.
